

# PROTECT YOUR HEALTH PREVENTIVE CARE

We know that life gets busy, so we want to make it simpler for you to get the care you need, when you need it.

Getting preventive care is one of the best ways to keep you and your family happy and healthy. This includes yearly checkups, health screenings, and immunizations—at no extra cost to you! Preventive care can help you:

- ▶ Screen for diseases
- ▶ Find out if you have any health risks
- ▶ Keep your vaccinations current
- ▶ Develop a relationship with your doctor

All adults should visit their health care provider from time to time, even if they are healthy and feel fine.

If you have any questions about what your plan covers, please call the number on your member ID card or visit [thfp.com](http://thfp.com) for more information. Call your health care provider if you have specific or immediate health concerns.

Examples of preventive services\* include:

- ▶ Application of Fluoride Varnish for children
- ▶ Routine physical examinations
- ▶ Well baby and well child care
- ▶ Immunizations
- ▶ Osteoporosis screening
- ▶ Cholesterol screening
- ▶ Glucose (blood sugar) screening
- ▶ Mammography Breast Cancer Screening
- ▶ Falls Prevention
- ▶ Colorectal cancer screening
- ▶ Cervical cancer screening

Certain conditions often don't produce any symptoms in their initial stages, but getting preventive care may detect potential problems early and when they are most treatable.

## How Can I Find a PCP?

It's easy! Just click on "find a doctor" at [thfp.com](http://thfp.com) on your computer or mobile device.

\*Screenings vary by age and gender, so consult your health care provider. This list is subject to change. Visit [thfp.com](http://thfp.com) for details.

Under the Patient Protection and Affordable Care Act (PPACA), commonly called Affordable Care Act (ACA) or health care reform, the following preventive medications and services may be covered at no cost (copay, coinsurance, or deductible) for Tufts Health Freedom Plan members, depending on their plan benefits. Please check the specific terms of your plan benefit document.
